“Blue Wax” Dissection Tray

Environmentally Safe Dissection Tray - **Completely Green**

This dissection tray uses a completely environmentally safe wax product instead of the “black wax” like product used in most other dissection trays. The MSDS sheet for this product lists no toxic chemicals and there are no fire, health or reactivity hazards with this product.

Cat#: DTW1 AIMS Dissection Tray (9” x 6.5” x 1”)

“Blue Wax” is specially formulated to provide the proper consistency to allow pins to stick firmly and be easily removed.

“Blue Wax” can be heated to renew the surface and the dissection tray can be reused several times

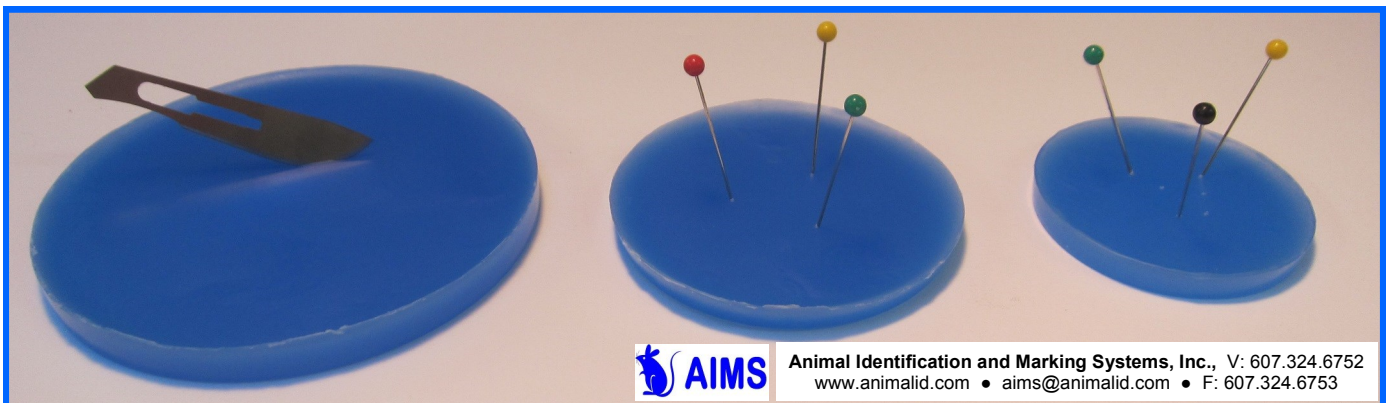

Tissue Processing Disc

Process tissue using a clean blue wax surface.

« *layout, pin, & trim tissue* »

Use for processing, inspecting, & documenting tissue pathology.

- Cat#: LTPD Large Tissue Processing Disc (4” dia., 1/4” thick)
- Cat#: MTPD Medium Tissue Processing Disc (2 3/4” dia., 1/4” thick)
- Cat#: STPD Small Tissue Processing Disc (2” dia., 1/4” thick)
- Cat#: TPIN Ball Head Tissue Pins, ss (1 1/2” long, 50/pk)
